**REFERENCE LETTER**

**Concerning: Application Call 2019 BULGARIAN DEVELOPMENT COOPERATION**

High School of Economics from Užice has been successfully cooperating with the Bulgarian Centre of Training Firms, a service centre of the Ministry of Education and Science of Bulgaria for the last years, as an active foreign participant in the training firms trade fair in Plovdiv from 2012-2019 until now.

They have been awarded many times. This year their training firm Biofoodies has won the second place within the presentation competition/in English/ and a Special Award for a high level of professionalism in the complex performance of TFs. Moreover, one of their students was a member of the winning international team competing in Global Enterprise Challenge Competition. Their teacher-mentors work on promoting the learning-by-doing method of practice enterprises /training firms/ in close cooperation with Bulgarian high schools and the Central office of Bulgaria /Bulgarian Centre of Training Firms/. The High School of Economics in Užice has a leading role in organizing different regional actors and stakeholders which resulted in the participation of different high schools from the region in the practice enterprises trade fair in Plovdiv this year - High schools from towns Prijepolje, Arilje and Čajetina.

We highly recommend High School of Economics from Užice as a responsible and trustworthy partner that follows new trends in education and adds to the respectability of the Bulgarian educational system to a great extent. We are ready to give them all our support if needed in the realization of the project that includes connection of our two countries and the exchange of knowledge and the experience as far as entrepreneurial education is concerned.

For further information, please, contact Mrs. Irina Dobriyanova: e-mail: [buct@buct.org](mailto:buct@buct.org); tel. +3592 9632272

Yours sincerely,

Daria Mavrudieva, manager
